

07.02.2022 Updates for Victor Reinz® PDF Catalogs

First presented in December 2021 and, as announced, the first update is already coming out: The new interactive Victor Reinz® PDF catalogs will be updated on a quarterly basis starting March 1, 2022. Dana is replacing all 58 PDFs and putting the new versions with all updates for Victor Reinz brand spare parts online. The new parts are highlighted in blue and marked with the button "NEW."

The 58 interactive PDF catalogs comprise one comprehensive catalog each for the passenger car and truck segment as well as 42 passenger car and 12 truck brand catalogs. The catalogs list a total of around 17,000 parts from the Victor Reinz brand.

The numerous links to more detailed information in the Victor Reinz online catalog as well as in pop-up information constitute an additional interactive benefit of the PDF catalogs. Almost every spare part is shown in color.

Starting March 1, 2022, all updates to the Victor Reinz PDF catalogs will be available for download free of charge from the website www.victorreinz.com/online-catalog/PDF.

The new interactive Victor Reinz PDF catalogs

Quick overview of the entire product portfolio

58 individual passenger car and truck catalogs broken down by brand

Color product images for almost all spare parts and sets

Contents of spare part sets are clearly identifiable
